Cat Litter Tray with Shovel

MSP-03-M

Product size:
48x40x21 cm

” Integral detachable
Easy to disassemble, ”
easy to assemble and easy to clean

Product Features

- **Design:** Features a semi-hooded design with a high back/rim to maximize splash protection.
- **Construction:** Integral detachable system; the upper rim easily lifts off for easy assembly/disassembly and cleaning.
- **Included Accessory:** Comes with a slotted litter scoop
- **Accessibility:** Open front ensures a low-entry point for cats.

Cat Litter Tray with Shovel

MSP-05

Product size:
49x45x15 cm

Product Features

- **Product Type:** Open-Top Cat Litter Box/Pet Toilet.
- **Construction:** Two-piece design (deep base tray and detachable rim/upper frame).
- **Design Feature:** High rim/lip helps prevent litter scatter and spillage.
- **Included Accessory:** Comes with a matching, slotted litter scoop.
- **Scoop Storage:** The scoop can be conveniently hooked onto the side of the rim for easy access.
- **Accessibility:** Features a low-entry opening on one side for easy access for cats and kittens.

Cat Litter Box

LS224

s: 49x39x18 cm

Large space circulation

About this item

- **Large Space:** The litter box has a large open space and good ventilation. (A closed space may cause behavioral problems). Suitable for animals such as cats and puppies.
- **With Cat Litter Scoop:** The cat litter box comes with a hook for the cat litter shovel of the same color. The design of this litter box does not hinder the space for cats to go to the toilet and avoids litter shovel everywhere.
- **Excellent Material:** Kitty litter box is made of PP

Cat Litter Box **LS236**

Product size:
42x50x38 cm

About this item

- **Product Type:** Top Entry Enclosed Cat Litter Box.
- **Design:** Fully enclosed structure with a modern, compact shape for privacy and odor control.
- **Dual Entry:** Features a transparent window and ventilation holes on the top surface (can serve as a top-exit area).
- **Litter Control:** The design helps reduce litter tracking, as any remaining litter may fall through the top-surface holes.
- **Cleaning:** Top cover is detachable for easy access and cleaning.

Cat Litter Box **LS292**

Product size:
53x38x21 cm

Fit seamlessly without gaps

Product Features

- **Aesthetics:** Modern, novelty design featuring smooth curves and integrated "wheels."
- **Construction:** Two-piece structure where the top and base fit together seamlessly without gaps
- **Disassembly:** The two parts (top and base) are detachable for easy cleaning and maintenance.
- **Litter Control:** The enclosed shape and integrated rim help contain litter and prevent tracking.

Green

Cream

Cat Litter Tray with Shovel **E-035-M**

Product size:
48x40x14 cm

Product Features

- **Product Type:** Modular Pet Litter Tray/Base.
- **Structure:** Composed of two main components: a deep Base Tray (the lower section) and a Frame/Rim (the upper section).
- **Easy Cleaning:** The Frame and the Base Tray are detachable/separable. This feature allows for easy dismantling, thorough cleaning, and refilling of litter or pads.
- **Function of Upper Frame:** Serves as a high rim or splash guard to contain the contents (litter or liquid) within the tray, minimizing scatter.
- **Shape:** Rectangular with rounded corners.

Dog Toilet

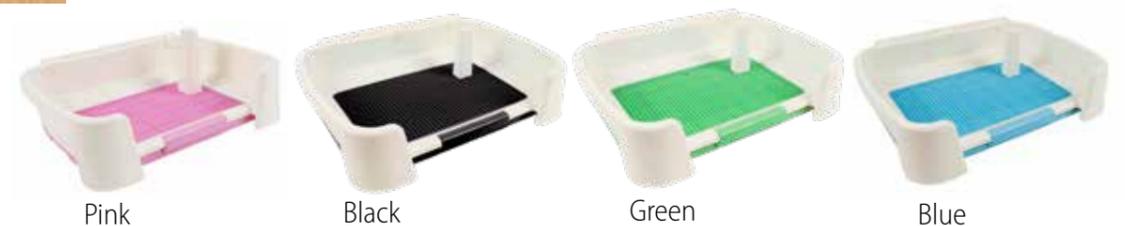

LS178 45x34x11.5 cm

LS179 60x45x13 cm

Product Features

- **Structure:** Three-part system: Base tray, removable mesh grid, and snap-on top frame.
- **Pad Holder Function:** The top frame secures puppy pads/training pads in place to prevent tearing or chewing.
- **Removable Pillar:** Includes a vertical post (pillar) for male dog training (to target urination).
- **Hygienic Mesh Grid:** Grid surface keeps paws dry by separating the pet from the wet pad below.

Dog Toilet

LS180 46.5x35.5x5.5 cm

LS181 67x46x8 cm

Product Features

- **Product Type:** Indoor Dog Potty Trainer with a Splash Guard and Pillar.
- **Structure:** Multi-component system with a base tray, a mesh grid, and a snap-on frame to secure pads.
- **Removable Wall/Splash Guard:** Features a high, removable back wall to prevent urine splatter.
- **Removable Potty Pillar:** Includes a vertical post that can be inserted for male dog training.
- **Pad Holder Mechanism:** The top frame locks down the mesh grid and holds puppy pads in place within the base.
- **Hygienic Surface:** The mesh grid ensures pets' paws remain dry by separating them from the soiled pad.

Method Use Method

Product Features

- **Product Type:** Indoor Dog Potty Trainer/Pad Holder.
- **Structure:** Multi-component system featuring a base tray, a mesh grid, and a snap-on frame.
- **Pad Securing Mechanism:** The top frame snaps over the mesh grid to securely hold puppy pads/diapers, preventing pets from chewing them.
- **Removable Potty Pillar:** Includes a vertical post (pillar) that can be inserted into the mesh grid for male dog training.
- **Hygienic Surface:** The mesh grid surface keeps pets' paws clean and dry by separating them from soiled pads/liquid.
- **Assembly Method (Use Method):** Easy to install/assemble by pulling up the snap, placing the pad on the base, covering with the grid, and snapping the frame down.

Pet Toilet

LS216 s: 46x37,5x4,5 cm

LS229 L: 57x45x4,5 cm

Product Features

- **Modular Design:** Two-part system (base tray and mesh grid) for easy cleaning and maintenance.
- **Removable Splash Wall:** High splash guard panel is detachable, preventing urine leakage, especially useful for male dogs.
- **Removable Potty Pillar:** Includes a vertical post that can be added or removed, acting as a urination target for male dog training.
- **Mesh Grid Surface:** Keeps paws dry and clean by allowing liquid to drain quickly into the tray below.
- **Hygienic Solution:** Provides a clean indoor potty area, making housebreaking easier.
