Rotating Cat Toy

RJ739

27.3 x 26 x 27 cm

This innovative toy is designed to capture a cat's attention and hunting instinct through dynamic movement.

- **Key Feature:** A transparent, circular or wheel-shaped toy that holds several small balls inside, which can rotate 360° on its axis.
- **Mechanism:** The wheel spins freely atop a stable base, allowing the balls inside to move continuously when nudged or batted by the cat.
- **Benefits:** Encourages mental stimulation, physical activity, and independent play for the cat, mimicking the thrill of the hunt.

Cat Toy & Spring House

The toy combines a ball track in the lower section with a mouse toy on a spring positioned in the center.

Mechanism:

- **Ball Track:** Small balls spin along the enclosed track in the base, enticing the cat to bat and chase them.
- **Spring Mouse:** The mouse attached to the central spring sways and spins when touched, mimicking moving prey.

Cat Toy

A combination of a flat scratching pad, a curved brush arch, and a hanging toy.

Functions:

- **Scratching Pad:** The base of the toy is covered with corrugated cardboard material, ideal for cats to sharpen their claws and stretch.
- **Grooming/Massage Arch:** The textured brush arch serves as a self-groomer and massager, allowing the cat to rub its face and body to remove loose fur.
- **Hanging Toy:** A small toy (furry mouse) is suspended from the arch, providing a dangling and attractive target for batting and play.

Cat Toy

HS062

25 x 7 cm

Circular Toy with a Deep Outer Track and a Central Section Filled with a Series of Fish Tail-like Shapes.

Feeder Mechanism:

- **Circular Food Track:** The circular track around the perimeter of the toy serves as a receptacle for scattering dry food (kibble) or treats.
- **Fish Tail Obstacles:** The center section studded with "fish tails" functions as an interactive obstacle, encouraging the cat to touch and play with the protruding shapes.

Cat Toy

A bowl- or disc-shaped toy with two core functions: a scratching surface (scratch pad) and a play/hideaway area.

Mechanism:

- **Scratch Pad:** The center of the toy features a textured surface (often made of felt or rough carpet material) that cats can use to scratch and groom their claws.
- **Hideaway Track:** The circular track around the perimeter of the toy has side openings (visible as holes) where small toys (like a mouse) can be placed or hidden. The cat can bat and chase the toy concealed within the track.

Cat Toy

250022EW

35 x 18 cm

This toy is designed to satisfy the cat's need for scratching while providing a comfortable spot for resting.

- **Key Feature:** A flat scratch pad shaped like a mouse, constructed from tightly wound natural fiber or hemp rope (sisal).
- **Function:** It provides a rough, durable surface for the cat to sharpen its claws and stretch. The cute mouse shape adds visual appeal and can stimulate play instincts. The mat can also serve as a resting or sleeping spot.
- **Additional Detail:** The toy features a small string (or tail) attached, adding an interactive element for the cat to bat or tug.

Cat Toy

WE 220229

A closed track designed in the shape of a horizontal figure eight or an infinity loop pattern.

Mechanism:

The track contains a ball inside, which can be nudged and batted by the cat to move along the circuit without ever escaping. Variations in the track's height and curves ensure the ball moves unpredictably, stimulating the cat's hunting instinct.

Cat Toy

542022EW

27 x 18.5 x 4.8 cm

A collection set of toys designed to stimulate the cat's hunting and chewing instincts through various textures and feather elements.

- **Key Feature:** Most of the toys are made from wound natural fiber rope or woven material (sisal/straw), decorated with real feathers attached to the top.
- **Feather Element:** Each toy features feathers that move and sway, mimicking small prey to entice the cat's instinct to bat and chase.
- **Use:** Ideal for throwing, batting, biting, and carrying by the cat. The natural fibers help clean teeth and satisfy healthy chewing needs.
