

PET SANITARY

Diaper (they are not just for humans. In fact, pet diaper can be necessary (and a relief for pet parents) due to a variety of factors, typically related to health. Pet diaper is mainly used to clean the excretion of cats, dogs and other domestic pets.

Because of all round three-dimensional enclosure design and firmly lock the liquid, we needn't to be afraid of our pet running and climbing and other large-scale activities.

It makes us feel more at ease. Cotton soft skin surface can reduce the friction of pet skin, not easy to fall off, which can make us more worry free.

FOR CAT & DOG

PET WIPES

DONO Pet Wipes is specially designed for pets. It has slightly alkaline PH for refreshing skin care.

Why slightly alkaline PH is so important?
 If pets use wipes with PH value inconsistent, the skin will be out of balance due to acid and alkali, which will lead to the growth of bacteria, creating odor and easy to get sick.
